REQUEST FOR CORRECTION OF FILING RECEIPT

Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

Sir:

Applicants respectfully request that the Filing Receipt for the above application be corrected as shown in red on the enclosed copy thereof.

The first amendment corrects the given name of the second inventor; this name appears correctly on U.S. Patent No. 6,664,944 issued on the parent of this application but was inadvertently mis-spelled on the papers filed with the present continuation application. The second amendment inserts the middle initial of the third inventor; the name of this inventor was given correctly on the Application Data Sheet filed with the present application.

The third amendment inserts a reference to Application Serial No. 08/983,404, of which Application Serial No. 09/141,448 is a continuation-in-part. Both the Application Data Sheet filed with this application and the "Cross-Reference to Related Applications" paragraph on pages 1-2 of the specification correctly list Application Serial No. 08/983,404 and its relationship to Application Serial No. 09/141,448.

Albert et al.
Serial No. 10/701,880
Request for Corrected Filing Receipt
Page 2

The fourth amendment inserts the correct serial number and filing data for the application originally stated as being Application Serial No. 60/065,529. The correct serial number and filing date are given on the front page of the aforementioned U.S. Patent No. 6,664,944 issued on the parent of this application. The last amendment simply removes the statement that the data provided by applicant is not consistent with PTO records.

A corrected Application Data Sheet is filed herewith. The corrections in this Application Data Sheet are as follows: (a) the name of inventor Barrett Comiskey has been corrected in the same way as on the Filing Receipt; (b) the serial number originally given as "60/052,122" has been corrected to "60/057,122" (this serial number is correct on the Filing Receipt and in the specification); and (c) the serial number originally given as "60/065,529" has been corrected to "60/065,629" in the same way as on the Filing Receipt (but note that the filing date in the Application Data Sheet was given correctly). Also filed herewith is a Preliminary Amendment making corrections in the "Cross-Reference to Related Applications" section of the description.

Respectfully submitted

David J. Cole

Date Mailed: 02/06/2004

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Foreign Applications

If Required, Foreign Filing License Granted: 02/03/2004

Projected Publication Date: 05/13/2004

Non-Publication Request: No

Early Publication Request: No

**** SMALL ENTITY ****

Title

Rear electrode structures for electrophoretic displays

Preliminary Class

345

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The

date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
